Objective

Motivated Frontend Software Engineer with three years of experience and a strong passion for writing, seeking to leverage my expertise in both technology and language to contribute to training generative AI models in Hausa writing projects.

Professional Experience

Program Analyst I

NYSC | Federal Medical Center | Birnin Kudu, Jigawa

Sep 2021 – Aug 2022

- Evaluated program effectiveness, monitored budgets, and analyzed performance metrics.
- Assessed policies and provided project management support.
- Engaged stakeholders and identified risks.
- Contributed to continuous improvement efforts and instructed students undergoing training within the organization.

Hausa Writing Expert

NYSC | Federal Medical Center | Birnin Kudu, Jigawa

Jan 2022 – Aug 2022

- Worked on various writing projects in Hausa, including short stories, articles, and technical documents.
- Provided accurate translations from English to Hausa, ensuring cultural relevance and context.
- Translated HTML, CSS, and JavaScript lecture materials into Hausa to enhance students' understanding.

Frontend Engineer

Brainstorm IT Solutions | No 1 Airport Road, Kano

Aug 2020 – Aug 2023

- Created user-friendly web interfaces using React.
- Ensured responsive design, cross-browser compatibility, and accessibility.
- Optimized performance and integrated data.
- Collaborated with designers and backend developers, conducted code reviews, and stayed updated with industry trends.
- Worked on projects like <https://brainstorm.ng> <https://wenyfour.com> <https://bitcoops.com>

Frontend Engineer

Shahuci Global Resources | No. 19 G/Baba Bature, Sharada Ind. Area Kano, Nigeria

Aug 2023 – Sep 2023

- Developed web interfaces that users love.
- Coded and styled web pages, ensuring smooth functionality on different devices and browsers.
- Strived for accessibility and collaborated with cross-functional teams.
- Reviewed code and embraced ongoing learning to keep pace with the ever-evolving frontend landscape.
